

## Pelham Public Schools 2020-21

### Student/Family Remote Learning Compact

The partnership between school and home is more crucial than ever before given the virtual nature of instruction in the COVID era. As a result, we are asking all stakeholders to commit to working together in a manner that is appropriate and respectful of student privacy, the teacher/student relationship, and the learning process. Please review these expectations with your child and sign and return the form to your Principal.

#### Students

##### During All On-line Sessions:

- I will attend my virtual classes and understand that attendance is required and will be taken daily.
- I will be on time to class, dressed appropriately, and in a location where I can focus productively on my classes.
- I understand, and am committed to, the behavioral expectations articulated in the Pelham Public Schools' [Code of Conduct](#).
- I will demonstrate academic integrity in all my work.
- I will use my school-issued Chromebook appropriately and in accordance with the District [Acceptable Use Policy](#) for technology.
- I will not share the link to a live classroom session with anyone outside the class.
- I will respect the integrity of the (virtual) classroom and student privacy by refraining from taking photos or videos of live classes and posting them to social media.

##### During Interactive Sessions:

- I will keep my camera on while participating in virtual classroom sessions.
- I will mute my microphone and only unmute when it is appropriate to do so or when directed to by a teacher.
- I will only share my screen when directed to do so by my teacher.
- I will use the chat feature appropriately to ask questions about the lesson or to answer questions from my teacher/classmates.

#### Families

- I will help my child find a dedicated learning space in my home where they can be focused and productive in their learning.
- I will make sure my child is prepared, dressed appropriately and on time for classes.
- I will make sure my younger child has assistance with logging into Google Classroom and will help them prepare for their daily learning.

- I understand the live virtual class time is between teachers and students and will not ask my own questions, log into the sessions using a separate device, or interrupt lessons.
- I understand that I may reach out to my child's teacher(s) via email with questions.
- I will respect the integrity of the (virtual) classroom and student privacy by refraining from taking photos or videos of live classes and posting them to social media.

## School

- We will provide all lesson materials through Google Classroom.
- We will provide training to support teachers in effective use of technology to support virtual learning and student engagement.
- We will respond to parents' emails in a timely manner.
- We will maintain open lines of communication.
- We will seek feedback on a regular basis to adjust our plans to meet the needs of students.
