### **Resolution 214 – ADVANCED PRACTICE REGISTERED NURSE COMPACT**

That our American Medical Association convene an in-person meeting of relevant physician stakeholders to initiate the creation of a consistent national strategy (consensus principles of agreement/solutions, model legislation, national and state public relations campaigns) purposed to: (1) Effectively oppose the continual, nationwide efforts to grant independent practice (e.g., APRN Consensus Model, APRN Compact) to non-physician practitioners; (2) Effectively educate the public, legislators, regulators, and healthcare administrators; and (3) Effectively oppose state and national level legislative efforts aimed at inappropriate scope of practice expansion of non-physician healthcare practitioners; with report back at the 2018 Annual Meeting. (Directive to Take Action) and AMEND H-35.988 Independent Practice of Medicine by Advanced Practice Registered Nurses.

That our AMA, in the public interest, opposes enactment of legislation to authorize the independent practice of medicine by any individual who has not completed the state's requirements for licensure to engage in the practice of medicine and surgery in all its branches.
