Pacific Life refers to Pacific Life Insurance Company and its affiliates, including Pacific Life & Annuity Company. Insurance products are issued by Pacific Life Insurance Company in all states except New York and in New York by Pacific Life & Annuity Company.

Product availability and features may vary by state. Each insurance company is solely responsible for the financial obligations accruing under the products it issues. Insurance products and their guarantees, including optional benefits and any fixed subaccount crediting rates, are backed by the financial strength and claims-paying ability of the issuing insurance company. Look to the strength of the life insurance company with regard to such guarantees as these guarantees are not backed by the broker-dealer, insurance agency or their affiliates from which products are purchased. Neither these entities nor their representatives make any representation or assurance regarding the claims-paying ability of the life insurance company.

Non-guaranteed elements are not guaranteed by definition. As such, Pacific Life reserves the right to change or modify any non-guaranteed element. This right to change non-guaranteed elements is not limited to a specific time or reason.

Pacific Life individual life insurance products are marketed exclusively through independent third-party life insurance producers, which may include bank affiliated entities. Some selling entities may limit availability of some optional riders based on their client's age and other factors. Your firm can help you determine which optional riders are available and appropriate for your clients.
