Training Highlights

- Suicide warning signs, risk factors and protective factors
- Strategies and skills on how to work with children who may be thinking of suicide
- Community and mental health resources

Suicide is the second leading cause of death among school age youth. However, suicide is preventable. Youth who are contemplating suicide frequently give warning signs of their distress. This presentation provides an overview to suicide prevention with a focus on empowering parents and caregivers on youth suicide prevention.

This presentation will cover suicide warning signs and risk factors, strategies on how to work with children who may be thinking of suicide, as well as provide an array of mental health and suicide prevention resources.
