Dear Truro Friends –

The news that there will be no parking at the school and possibly no parking on Route 6 presents yet another challenge to voters. Do not let this keep you from voting! We have a little time left to tell the Town this is not okay and it is without precedent. I spoke up last night at public comments to open discussion up. I've already heard from some people that they will not go if they must wait for a bus to take them to the school.

But if they stick to this position, we can't let this deter us from getting out the vote as we did for the Special Town Meeting that was postponed. It's so important that the residents of Truro go to Town Meeting and cast their votes from their hearts. Don't be discouraged by the obstacles! It's easy to despair, I know. The changes in Truro are coming fast and hard. The only answer is to show up and make your feelings known by voting. I hope to see you all there.

Jan Worthington
