

National Association of Women in Construction
Silicon Valley, CA Chapter #99
2318 Lafayette Street
Santa Clara, CA 95050

Dear Industry Partner:

The National Association of Women in Construction (NAWIC) originated as Women in Construction of Fort Worth, Texas. Sixteen women working in the construction industry founded it in 1953. Knowing that women represented only a small fraction of the construction industry, the founders organized NAWIC to create a support network for women working in a male-dominated field.

Today, NAWIC has over 115 chapters throughout the United States that provide its members with opportunities for professional development, education, networking, leadership training, public service and more. NAWIC continues the vision of its founding members by advocating for the value and impact of women builders, professionals and tradeswomen in all aspects of the construction industry.

NAWIC Mission Statement

The association committed to championing women to impact the direction of the construction industry. NAWIC provides education, community, and advocacy for women.

NAWIC Core Purpose

Strengthen and amplify the success of women in the construction industry.
