

September President Letter

Hello, NAWIC Silicon Valley Chapter #99 members,

Wow! It's September and the autumn season is here. I can't believe how quickly a year has gone by. I have heard the elements of autumn either fundamentally deliver happiness or trigger memories of past joy. Being that this will be my last President's Letter as your NAWIC President, it is triggering memories and joy for me. Thinking back on this past year I have met some awesome ladies and I am so happy to have made these great connections.

Our chapter had great educational, inspiring meetings and cool job site tours, which I hope helped all of us to understand the industry more. We have been active in the community, fundraised, and gave out scholarships. During the past 12 months, we also had lots of networking, collaboration, and of course, plenty of laughter and great times. I want to say Thank You to all for participating in this past year's journey. I will still be around so if you need anything I am always available, just reach out to me. If I can help I will - that is what NAWIC is about! Helping each other and lifting each other up.

We need lots of volunteers next month! October 14th -15th we are helping Millbrae Nursery Preschool - a nonprofit, cooperative preschool providing a safe and social education since 1938. If you can commit one day, both days, or a partial day, it will truly make a difference! This is a community event so bring your families - all are welcome. Light breakfast and Lunch will be provided. See the flyer in this month's Newsletter or reach out to me for more details. **Please help us make this a success!**

Lastly, I am so excited about the new board starting October 1st. They are going to be awesome! I am sure they will continue to bring you great meetings, networking, and collaboration so we all WIN.

Take the challenge I presented last month and get involved with NAWIC by joining a committee, or even chairing or co-chairing one. Try to attend a conference, you will be happy you did.

Together we are always better!!

Sincerely,

Angie Ramos ,CIT
