Stipend \$5000 | Allowances for Travel and Room & Board

# EXPLORE SUSTAINABLE FOOD SYSTEMS RESEARCH THIS SUMMER

## MAKE YOUR SUMMER MEANINGFUL!

- Become a member of an active research lab to conduct cutting-edge food systems, plant, and soil science research
- Visit farms, food-justice organizations, and off-campus research projects in the vibrant Twin Cities region
- Engage with top-notch researchers, innovative farmers, and industry mentors
- Craft your future career through weekly seminars focusing on your professional development

## RESEARCH PROJECTS INCLUDE:

Urban Agriculture, Entomology and Integrated Pest Management, Perennial Grass Biology, Organic Agriculture, Soil Health, Vegetable Variety Trials, Fruit Metabolomics

## WHO SHOULD APPLY:

- Undergraduates with a background in science and a passion for food systems research
- Women and students from underrepresented and economically challenged backgrounds strongly encouraged to apply
- US Citizenship or Permanent Residency required

**APPLICATION DEADLINE: FEB. 15, 2022**
