

Phyn Plus

Smart water assistant + shutoff

Phyn Plus measures tiny changes in water pressure — 240 times a second — to alert homeowners the moment a leak is detected, mitigate costly damage through automatic shutoff, and diagnose potential problems in plumbing systems before they become an issue. This single device, installed by a plumbing specialist, enables homeowners to manage their water throughout the entire home, even when they're away.

Device Features

HD pressure sensing

Phyn uses patented, high-definition pressure wave sensing to catch plumbing issues ranging from faucet drips to pinhole leaks to frozen pipe bursts.

Intelligence

Phyn learns about your plumbing system as soon as it's connected, and gets to know the unique signatures of each fixture better over time to recognize the subtle differences between a bath filling and pipe leaking.

Built-in shutoff valve

Phyn Plus can turn off water automatically in the event of a catastrophic leak, protecting homeowners from costly damage.

Professional installation

Phyn Plus is installed by a member of the Uponor Pro Squad, a nationwide network of expertly-trained plumbers and water specialists.

Leak alerts

Real-time mobile notifications alert homeowners to potential leaks, and give them the power to turn off their water remotely using the Phyn app.

Decade in the making

Phyn's technology has been honed in the labs of the University of Washington and Belkin, the hands of plumbers, and the homes of beta testers.

Health checks

Daily diagnostic "health checks" notify homeowners of unsafe pressure levels and potential leaks before they become larger issues.

One device, whole home

One device monitors the entire home's water from a single location on the main water line.

Product Specifications

Installation

Uponor Pro Squad professional installation required

Location

Indoor/outdoor rated
Tested to withstand extreme heat, cold, humidity, wind and rain
External materials are UL rated and include UV inhibitors

Orientation

Horizontal or vertical
Industry standard lay-length; can fit between existing and new construction wall studs

Fitting size

1" male threaded ends designed to adapt to different fittings and plumbing materials (PEX, copper, PVC, etc...)

Power

110/220V 19W power supply
15 foot outdoor rated power cable
GFCI outlet recommended

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Features

Easy set-up
Free Phyn app
Leak alert notifications
Automatic + remote water shut-off

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Connectivity requirements

iOS 9 or later
Android 4.1 or later

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Wireless

Working Wi-Fi connection
802.11 b/g/n @2.4Ghz

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Antennas

Dual internal antennas

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Shut-off Valve

Full bore construction
Electronic remote control
Custom designed manual water shutoff override tool

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Display

RGB LED

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Weight

2.2 lbs

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Sensors

Exclusive ultrasonic flow meter by Badger Meters
High definition pressure sensor +/- 1%
Temperature sensor +/- .05

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Certifications

UL, FCC, NSF

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port

Warranty

2-year limited warranty

Single device, whole home protection

Plumbing "health checks"

Manual shut-off tool

External antenna port
