

## ***HANNOVER MESSE 2019***

### **NORTHEAST HYDROGEN AND FUEL CELL GROUP EXHIBIT**

The Connecticut Hydrogen Fuel Cell Coalition and the Northeast Electrochemical Energy Storage Cluster invites hydrogen, fuel cell, and electrochemical energy storage companies to exhibit at Hannover Messe, the world's largest industrial technology trade show. Hannover Messe will be held **April 1-5, 2019 in Hannover, Germany**. Exhibiting may increase sales, exports, and revenue, while promoting the hydrogen and fuel cell industry in CT and the Northeast US.

#### **You Will Experience:**

- 200.000 visitors and 6.000 exhibitors are expected
- Approx 200,000 square meter exhibition area at Hannover Messe
- New business opportunities
- Meet potential customers and strategic partners
- Increase company recognition internationally
- Connect with businesses on numerous energy topics: wind, solar, hydropower, geothermal, power plant efficiency and this year - batteries!

**Participating with the Northeast Group Exhibit will save your company money and time**

#### **You Will Receive:**

- Support in the design, production, and set-up of your displays and graphics
- Booth space for the 5-day exhibition
- Standard furniture, carpet, and lighting
- Four networking evenings including dinner with business leads
- Speaking opportunity in the Public or Technical Forum (space is limited; first come first serve basis)
- Video-recording and live stream of your forum presentation
- Exhibitor tickets, unlimited visitor tickets, and parking passes
- Electricity and Wi-Fi at your booth (230V/50, 60Hz)
- Meeting rooms and quiet exhibitor lounges
- Working area with computers and high speed Internet
- Online promotion with your logo, company profile and information about your products
- Breakfast, lunch, dinner and beverages (coffee and soft drinks) for all your representatives daily

**Please note that all travel, lodging, shipping of marketing materials, and meals away from the show are the responsibility of each participant.**

**Support provided by the CT Department of Economic and Community Development and the State Trade Expansion Program of the US Small Business Administration.**
