

Meet Brannon Craig, GAPPP President 2021!

My favorite vacation spot is visiting my kids in Central or South Florida! But somewhere I have never been (but is at the top of my Bucket List) is New Zealand!

I grew up (or have lived) in 26 places since birth. In fact, some might say I'm STILL growing up!

☺ Born in Hollywood, CA, and always lived in the South (including Puerto Rico from 4-6 years old)! I have lived BY FAR the longest in Atlanta, GA, and this is my HOME!

My favorite movie is Avatar for sheer awe factor and entertainment! It was really “cutting edge” cinematography! But I'm a movie freak, and have seen most movies that are worth seeing, and I've seen LOTS of great ones!

My favorite cliché is “What doesn't kill you, makes you stronger”, but the one I use most, I stole from Dave Ramsey, and answer almost any time someone asks me how I'm doing...I always say “better than I deserve”, and it's

true. I'm blessed and thankful.

My favorite ice cream flavor is “Pralines and Cream” or “Butter Pecan”

The farthest place I've ever been to from here is Santiago, Chile or Anchorage, Alaska!

The “Craziest” thing I've ever done is dove the Bimini Trench (Among the deepest places on earth)! It goes from 120' to over 5 miles deep! While I just (SCUBA) dove to 140' depth, going over the edge and looking into the blackness was VERY scary, but exciting. I sucked through an entire tank of air in minutes! While hovering less than 1 foot in front of a small cave on “The Wall” of this trench, I saw a flash of white light that made jerk backward, which kept me from having my face bit off by a giant moray eel! (The flash was the white lining of the inside of his mouth as he snapped at my mask!
