The Summer Food Service Program (SFSP) is a U.S. Department of Agriculture (USDA) federally funded program that reimburses sponsors for administrative and operational costs to provide meals for children 18 years of age and younger during periods when they are out of school for fifteen (15) or more consecutive school days. Good nutrition is essential for learning in school. The SFSP provides an opportunity to continue a child's physical and social development while providing nutritious meals during vacation periods from school. Participation in the SFSP helps children return to school ready to learn.
