

INCLUSIVE EXCELLENCE

Sign-up for the Faculty Mentor Directory in connecting residents and fellows to academic careers

SUPPORT LEARNERS. SHARE EXPERTISE. STRENGTHEN UC DAVIS HEALTH COMMUNITY.

The Office of Medical Pathways invites faculty members to join the Faculty Mentor Directory, a new mentorship initiative that provides a directory in connecting residents and fellows with faculty members who share similar academic interests, identities, or a passion for addressing health equity. This voluntary mentorship initiative is designed to increase exposure to academic medicine by building meaningful connections between trainees and faculty members.

Mentorship offers a powerful avenue for sharing expertise and shaping the next generation of academic physicians.

Through thoughtful guidance, faculty can foster trainees' professional growth, provide meaningful insight, and help them build the relationships that support a successful and fulfilling career.

Mentors may serve as coaches, advisors, and advocates, offering guidance that strengthens trainees' early career development. Their engagement not only supports individual growth but also contributes to building a more diverse and inclusive community of physician leaders.

Sign-up today and help learners benefit from the knowledge and experience you bring to the academic community.

Faculty mentors can provide

- Insight into academic and professional growth
- A supportive listening ear for decision making
- A sense of connection and belonging
- Relevant resources and informed guidance
- Perspective on work–life balance
