

Andrew Sorg
Candidate for Board of Directors

I am inspired by the passion, drive, and voices of the BMA's musicians. I heard you and am here to build a future-focused, transparent system—open, fair, and accessible to all. I was directly involved in passing the new law setting safe temperature limits for indoor venues, proving we can create real change together. My vision is a non-biased framework grounded in immutable transparency that is cost-efficient and fair. Let's be the movement of the future using revolutionary technology built by us, for us. I have the team and means to explore this at zero cost. Email me: Sorgboston@aol.com
