

George E. Darrah

Candidate for Board of Directors

As an active musician in the Boston area, I believe strongly in the Boston Musicians' Association's mission. If elected, I would work towards building bridges, developing an inclusive and relevant approach for emerging musicians, while helping to continue to advocate for our current members within the union. In these complex times, I am committed to continue the great work the union has done by protecting the careers and improving the lives of all musicians in all fields of music. Thank you for your consideration.
