Suggested Converge Meeting Topics (In detail)

- o Current Market Conditions & Forecast
 - General Sentiment and Specific Market Trends
 - National, Regional and Local
 - What are Suppliers and Contractors doing to better position themselves in emerging markets?
- o Known Upcoming Significant Projects (Regional and Local)
 - Can we help position each other through relationships or other forms of strategy for success?
 - How are significant projects (potentially being performed by others) effecting the market?
- o Local and Regional Sales Representation
 - Understanding the Local Political Landscape
 - Are Manufactures and Suppliers being Represented Well?
 - o How does M&S Rep Companies Stack-Up to their Competition?
 - Are Equipment and Material Proposals being fairly presented to Contractors?
 - o Rep Companies Packaging Capabilities and Strategies
 - Contractor's Local Salesperson – Performance relative to Rep Company's other Salesmen
- o Immerging Technologies
 - Do Manufacture & Suppliers have new technologies or innovations that can give Contractors advantages for securing work or assist in maximizing profits on existing projects?
 - Immerging technology trends in various markets
 - Changes in Design Standards or Codes
- o Backlog and Current Work Under Contract
 - Do opportunities to help each other exist with specific projects that are under contract?
 - Discuss the key players and contacts responsible for work under contract.

Any questions?
