

# What's the Buzz on the AALAS Learning Library?

## The Laboratory Animal Research Support Certificate Program

People are talking about the new Training Program Certificate opportunity for staff with no or minimal hands-on animal experience. Completing this program on the AALAS Learning Library will provide a foundation of knowledge that will aid in understanding the work performed in biomedical research that they support in their job.

### Target audiences

- Administrative staff
- IACUC staff
- Quality Assurance staff
- Custodial staff
- Senior management
- Trainers (non-animal)
- Vendors
- Students

### Areas of Focus

- Animal research regulations
- Animal rights/activism
- Facility security
- Occupational hazards, including zoonotic diseases, animal allergens, & compassion fatigue
- Personal protective equipment
- Data collection and record keeping
- IACUC basics
- Barrier and containment facility types
- Applicable species-specific info

More information is available in the **Introduction to the Laboratory Animal Research Support Certificate Program** course.

To get started:
