

Online & Onsite Workshops

From Sharp & to the Point

#2-2020

Our woodworking workshop lists commonly include workshops focused on sharpening, making, or maintaining handtools, especially those using blades from Hock Tools.

However, this newsletter greets you in challenging times—no less challenging for woodworking schools and teaching woodworkers. In support, we are paying less attention to our handtools-only requirement and including workshops focused on power tools, as well.

Also, some workshops are online only, others are structured around limited numbers of students, social distancing, mask requirements, and other COVID-19 safeguards.

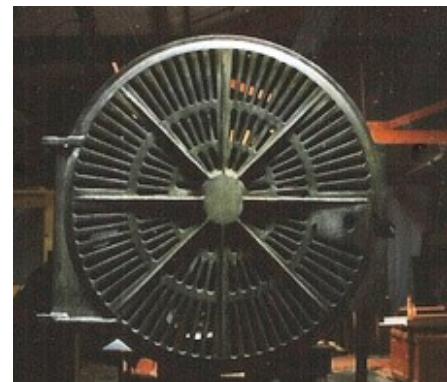

The Internet is filled with what woodworking schools and teaching woodworkers are offering. This pandemic has brought sheltering-in-shop to new levels! Schools and teaching woodworkers continue to meet the voracious appetite of the ever-curious, ever-learning woodworker.

Below are only a few examples of workshops.

Northwest Woodworking Studio Online Lectures or Workshops

July 1, 5-7pm PST

Milling Lumber: Rough to Finish

July 22, 5-7pm PST

Hand Planes: Best at the Bench

August 7, 5-8pm PST

**47 Episodes—What a
Way to Binge!**

Episode 3: Former President Jimmy Carter takes you on a tour of the Maloof furniture and Moulthrop bowls in his office and tells about his friendships with these icons.

Southwest School of Woodworking

- In addition to our standard class policies, we are taking additional precautions due to the COVID-19 virus. Effective May 26, 2020:
 - We will be strictly limiting class sizes to no more than eight (8) students to allow for adequate distancing between class participants. All benches and shared tools will be sanitized before and after each class.
 - All students, instructors, and staff are required to wear a properly-fitted mask that securely covers the nose and mouth while inside the school.
 - When entering the school, all students, instructors, and staff will have their temperature checked. Anyone with a temperature above 100.3 will not be allowed to enter the building.

July 6 - July 7, 9am—5pm

Make a Wooden Hand Plane With David Fleming

July 11 - July 12, 9am—5pm

Marquetry with David Fleming

Thank You for Choosing Hock Tools

Hock Tools The Perfect Edge Ron Hock
