**Let's talk about AGING**

**We're all doing it, and there are age related health issues that some of us are dealing with now or might be soon. Age related macular degeneration, vertigo, balance/falls, hearing loss— are there tools or practices that you have found useful? Sometimes talking and sharing stories can help.**

**Host: Star Pelsue**

**- Climate Chat - Hot Farm – Grain of the Future**

**The podcast is about what farmers are doing – or could be doing – to take on climate change. In this episode, we'll hear about the crops farmers actually grow. And we'll explore the question, can that change? Because as the world gets hotter and the weather more extreme, we'll have to reimagine what we sow and harvest — and also what we eat. It won't be easy.**

### **November Podcast Chat # 2**

**November 29th, 7 PM, 1 – 1 ½ hours**

**Host: Star Pelsue**

## **Trust Me**

**Anne: we don't have all of this nailed down yet. We are trying to get a couple members of the Penobscot tribe to join us in this conversation. Title and description haven't been created yet but the date is accurate.**
