

**Healthy Schools Has Gone Paperless!**

Dear Parent or Guardian,

As you know, the Tdap (Tetanus, Diphtheria, and Pertussis) Vaccine is a required immunization in the State of Florida for your child to enter the 7<sup>th</sup> and we would like to invite your child to participate in our Tdap in School Vaccination Program. We encourage all families to see their primary care physician for this immunization as soon as possible and provide the official 680 form of documentation to your school. However, if you have not or are not planning to see your primary care physician for this vaccination, we strongly encourage you to take advantage of this opportunity to receive the Tdap Vaccination at your school.

Please visit <https://secure.caredox.com/enroll/seminole-tdap-2017> in order to enroll your child.

**Enrollment must be received no later than Friday, April 28, 2017.** You may use your computer or phone to enroll. If you need assistance, please contact the clinic at your child's school. **Tdap clinics will be held the second week of May at your child's school.** Final schedule will be emailed out next week.

**Tdap vaccination is federal REQUIREMENT for your child to enter into the 7<sup>th</sup> grade!**

The inoculation is made possible at each SCPS middle school through the collaboration and support of the Seminole County School District, Seminole County Department of Health, and most importantly your school nurses; who work every day to take care of your child's health needs. Please join us in keeping the community healthy and safe, as well as ensuring that your child is able to enter the 7<sup>th</sup> grade without delay on the first day of school this fall.

Thank you,

*Tony Boselli & the Healthy Schools Team*

*Florida Department of Health – Seminole*

*Seminole County Public Schools*
