Proceeds from this year's event will benefit the Campaign for the new Cancer Care Center at Advocate Lutheran General Hospital, including an expanded, newly built Cancer Survivorship Center. This investment will help redefine the patient experience by uniting advanced treatment, innovative therapies and supportive services in one integrated location. By expanding capacity and enhancing coordination, the center will improve access to cutting-edge care while reducing the burden on patients and families. It will also strengthen survivorship services, ensuring ongoing support long after treatment ends.

Parking is free and available in the adjacent structure. Uber and Lyft are also encouraged.
