

SPRINGWOOD INTERNATIONAL

High School Residential Program

for International
Students

2023-2024

Springwood
was founded
in 1970

Springwood is a school that feels like a family...

A place where students are surrounded by people who know and care about them. International boarding students live with residential staff in our on-campus dormitory, the Springwood International House. Students have the opportunity to develop independence in a safe and supportive environment. The skills they develop at Springwood International, from learning how to be a good roommate, to managing their time effectively, even doing their own laundry, will help prepare students for successful college life.

Students find their place at Springwood School, regardless of where they are from and what their interests are. Students this year are from:

Everyone at Springwood is friendly and warm, and I feel deeply connected to my roommates, classmates and teachers. I am building relationships here that will last a lifetime."

10th grade student from Germany

Residential
life at
Springwood
School

Going to high school in the U.S. is about more than just schoolwork. At Springwood International, students can also experience and enjoy American and local culture.

When students are not busy studying, they can enjoy a variety of on and off campus activities.

Weekends provide opportunities for students to try new things, build relationships with their housemates, explore the area, or just relax at the Springwood International House.

The education, experiences and relationships students have at Springwood International will expand opportunities in their life and open their minds to new possibilities.

Springwood International House

- Family-style dormitory opened in 2018
- Live-in House Parents
- Security system and personal entry codes
- Generously-sized student rooms in separate male and female areas
- Rooms equipped with personal sleep, study, and storage areas for each student
- Common areas in male and female areas offer additional gathering and study space
- Shared spaces are available for dining, studying, recreation, watching television and relaxing
- Meals are included and students have kitchen privileges
- Nurse on staff and a sick room is available
- Free laundry facilities for students
- Classrooms, Gymnasium, Weight room, Fine Arts Center and athletic fields are a five-minute walk away
- Academic and English support study sessions offered
- Airport transfers and in-town transportation provided
- Dormitory remains open during school holidays
- Weekend activities include restaurant outings, sporting events, trips to the mall, hanging out with friends, watching movies, playing games, spending a cozy day watching television on the sofa and much, much more!

2022
Blue Ribbon
Award
(11 consecutive years)
