

## Moving Forward in Spite of COVID-19

***We are proud to share that even while tackling the Pandemic, we have successfully opened and received licensing for two new specialized group homes! We opened the doors to our "Village Road" home in Hamilton on October 16, 2020 and our "Horan" home (named in memorial to former Executive Director, John Horan) in Lawrenceville on November 3, 2020.***

We developed our **Village Road** home to broaden our ability to serve young men who require additional behavioral support. Before opening, we had a list of individuals waiting to join our community. We were thrilled when our doors opened to have three successful placements who are currently thriving in their new home.

own **private rooms!** We offer 24/7 onsite staff with Specialized Behavior Training as well as additional support from a Behavior Specialist.

Our **Horan** home is very similar, but structured for women who also require additional behavioral support. Since opening, we have had two wonderful young ladies move in who are doing well and making connections! In April, we welcomed another young lady and the current residents could not wait to meet their new housemate!

Horan is a spacious **5-bedroom, 3-bathroom**

home in Lawrenceville, NJ. Like Village, it offers all residents their own **private rooms!** We offer 24/7 onsite staff with Specialized Behavior Training as well as additional support from a Behavior Specialist. The home is also fully accessible for all forms of mobility!

**These homes are very special to The Arc Mercer. Not only are they a testament to our commitment to our mission, but also to our team's ability to persevere even when faced with the adversity of a Pandemic.**

***Both Village Road and Horan still have vacancies! If you would like to see your loved one join The Arc Mercer community, please contact our Family Supports Department at [familysupports@arcmercer.org](mailto:familysupports@arcmercer.org) or call us at (609) 406-0181, ext. 112.***
