Submission Tips

For best service, please download the most recent versions of our applications on our website for your submissions. Our applications are easy to fill in online and can be sent to us with a click of a button. They can also be saved and sent at your convenience. We will accept other applications as well.

Here are some tips on how to get your quote as soon as possible:

- Visit www.abexinsurance.com under Applications tab or click here to access our applications
- We do best with submissions for our Target Classes but will look at other risks
- Send your submissions to quotes@abexinsurance.com so that our team can assign them to the available underwriter who will review them and get back to you as soon as possible
- Include the policy effective date in the subject line of your email: e.g. October 31/Client Name
- Provide a full submission with full description of operations
- Provide occupancy for realty risks

Provide your broker code on application to avoid policy issuance under wrong branch.
