

"Aspire to Inspire!!!"

You will not want to miss this camp to inspire the writer that exists in all of us. Participants will be introduced to Picturing Writing, a "dynamic evidence-based approach to teaching writing" which incorporates art, picture books, and writing strategies that will result in a final published keepsake that everyone will admire for years to come! If you want to know more, don't be afraid to inquire!

June 3rd - 7th, Morning Session

"Solve Your Own Problems"

Not your typical math camp! We will spend the week exploring how math is the main component of our everyday life—often in the ways, we don't even realize! We will see its importance in making the smartest purchase, sports, problem solving, cooking, and even getting a gumball out of a machine ... just to name a few! Come and learn with us through games and activities!

June 3rd - 7th, Afternoon Session

"Robotics: A S.T.E.M. Camp"

Students will use robotic components to create and program a robot to complete different tasks. The camp's goal is to spark an interest in student involvement in science, technology, engineering, math, and computer science. No experience necessary, simply a willingness to try new things.

June 10th - 14th, Morning Session

"Ready, Set, Sew!"

This introduction to sewing basics and skills will be SEW much fun! This camp is perfect for boys and girls who are new to sewing or who have very limited sewing experience.

The daily skill building projects are designed to provide a creative, exciting, hands-on experience that will have participants excited to explore this lifelong skill! SEW, what are you waiting for??? Sign up!!!

June 10th - 14th, Morning Session

"Sew...What's Next???"

If you already have some sewing experience, then this sewing session is for you! Be ready to build on fundamental sewing skills and explore projects that take you to the next level of expertise! Not only will you value the process--You will expand your sewing skill set, experience success, and impress your family and friends with your finished products!!!

June 10th - 14th, Afternoon Session

"Up-cycling Camp"

Hey, hey, what did you say? An UP-CYCLING CAMP??? Count me in - all the way!!! You will not want to miss this week-long opportunity to explore creative ways to reuse and re-purpose materials that others might be ready to discard. We will transform what others consider "trash" into treasures! This camp is for creative, problem-solvers who are excited to let their innovative skills inspire and ignite a passion for improving the world around them.

June 17th - 21st, Morning Session

"Warrior World Tour"

Attention travelers: Pack your bags without leaving Nebraska! You are invited to join us on a mini world tour. You will get your passport stamped five times as we visit a country each day. We will immerse ourselves in their culture by playing games, making food, crafts, and we will even have visitors from these faraway places.

June 17th - 21st, Afternoon Session

"High Flying Rockets and Wacky Crazy Science!!"

If you love rockets and doing wacky, slimy, yummy science experiments, you will love this camp. Join us as we explore the world of rockets where we study, assemble and launch Water Rockets and Estes Rockets. We will also dive into science experiments that deal with air pressure, surface tension, aerodynamics, force and motion. making slime and so much more!

June 24th - 28th, Morning Session

"Polka Dot Girls"

We all have fights with our friends, our siblings can pick on us, we can get frustrated with our parents, our teachers can make us mad, and our neighbors can hurt our feelings. God knows how important your relationships are to you, and so He wants to help you with them! This fun, interactive book study will help you learn all God has to say about having good, healthy relationships! Each day will have lessons with Bible verses and stories, a place for you to journal and dig deeper into your thoughts, activity sheets, and crafts!

June 24th- 28th, Morning Session

"Watercolor with Me - In the Forest!"

Through nature, God can teach us, speak to us, and provide for us. During camp, we will learn to appreciate God's creation through daily devotions and watercolor painting! From a classic dogwood rose to a sly fox, to feathers that take on a dreamy quality; students will create artwork in just a few easy steps—no sketching required. This step-by-step class will help students learn the basics of watercolor!

June 24th- 28th, Afternoon Session

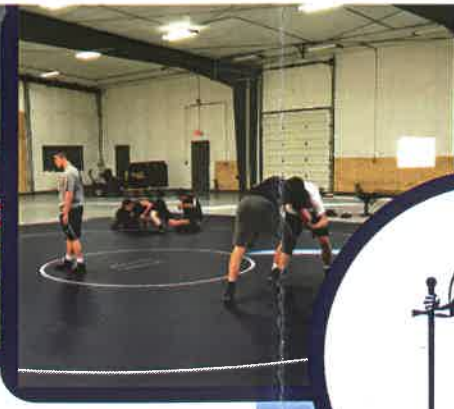

"Survivor Camp"

Can you build a shelter with only a tarp and some twine, find your way with a compass and catch your own food? You will have a chance to do all of this and more at Survivor Camp! Have a blast putting your outdoor survival skills to the test through customizing your epic survival kit as well as games, activities, and exploration. On day five we will put those skills to the test as we hit the lake for an afternoon of fishing, fire building, and most importantly.. roasting

hot-dogs and making s'mores!

June 24th- 28th, Afternoon Session

"Variety Show" - Performing Arts

Do you love to entertain? Join us at Performing Arts Camp. Do you play an instrument, or have a favorite song you love to sing? Bring all your ideas, and we'll make your dreams come true. We will spend the week preparing musical numbers, solos, comedy scenes, set building and instrumental groups for a variety show performance on Friday. This camp is offered in the morning and afternoon; the sessions will be different.

July 8th-12th, Morning & Afternoon Session

"The World of Food"

Who doesn't like eating a good meal? Why not learn more about other cultures while learning how to make your very own dishes? This camp is all about learning how to cook, focusing on basic techniques and kitchen rules while making different foods from around the world. We'll be cooking up a storm and enjoying meals from Cambodia, Thailand, Mexico, and good old America (and we'll learn a little about those countries, too!)

July 8th-12th, Morning Session

"Measure Twice, Cut Once"

Have you ever looked at projects and thought, "WOW! How did they build that?" Do construction and design intrigue you? Well, in this camp you will begin to learn the importance of Safety and measuring twice before cutting once. Instructors will be demonstrating on power tools, while the campers will be gluing, nailing, drilling, sanding and painting different projects to increase their curiosity.

July 8th-12th, Afternoon Session
