SIRUM

Do your patients have surplus oncology medicine?

By signing up to participate in California's **Cancer Medication Recycling Act**, you can accept unused, unexpired oncology medications from your patients and redistribute to patients in need.

Sign up to **prevent waste** and **help patients in need**.

SIRUM

How does it work?

Register to be a participating practitioner at **link.sirum.org/ca_onc**

If SIRUM approves your application, you will receive a **certificate** that authorizes your participation.

SIRUM will provide the templates for the **forms and documents** to participate.

When a patient has surplus medication that meets the requirements for donation, you may **accept the donation** for re-dispensing.

When a patient has a need for medication that has been donated, you may **dispense that donated medication** to the patient.
