

Call to Artists

Iconic Buildings of Somerset County

Somerset County has many wonderful iconic and historic buildings scattered throughout the County. As artists, we all have seen these structures and often have photographed, drawn, painted or even sewn (the textile art of stitching) these buildings.

Somerset County Arts Council is interested in working with artists to present artworks of their choice of an iconic or historic building that is found in Somerset County. The artist can also use a "lost" building, a building no longer standing.

We require approval of the building choice, to not have redundant buildings presented. Once the building has been approved, the medium of the artwork is left up to the artist. We require the size of the work be kept to 11X14 and ready to hang, so there will be consistency in the presentation of the various works. There will be a stipend of \$250 for each work, which will be given to the artist once the piece is complete. The work will then become property of SCAC. We will show these various buildings at our West Main Street Gallery and other locations throughout the County. Artwork due by: May 30th

We ask each artist to provide:

- Name, if known, of the building
- Location of the building
- Why you picked this building

We hope to prepare a map of the various buildings throughout the county allowing visitors to make a day-tour of these iconic and historic locations.
