#### St James Book Group 1/27 at 7PM

The St James Book Group will continue to meet in 2021. We'll start the year meeting virtually due to the continued pandemic and our desire to keep people as protected as possible. Our virtual gatherings may be joined by either telephone or internet (you may choose to use video or not on the internet connection). Our January meeting will be on Wednesday, January 27 from 7-8PM. We will plan to meet the 4th Wednesday of the month through October, and then the 3rd Wednesday of November (11/17) and December (12/15).

If you would like to borrow a book from the inter-library loan, please contact Anne Schuette (920-242-2819). Anne will continue to be our liaison for the Interlibrary books and will work with the library and Peggy Turnbull to set up this year's reading schedule. Please feel free to participate even if you have not read the book. Invite a friend. If you have technical difficulties Amma Diane Murray (920-860-5152) will try to help you with these.

At our December meeting we selected *Secondhand: Travels in the New Global Garage Sale* by Adam Minter Downsizing. Decluttering. Discarding. Sooner or later, all of us are faced with things we no longer need or want. But when we drop our old clothes and other items off at a local donation center, where do they go? Sometimes across the country—or even halfway across the world—to people and places who find value in what we leave behind. In *Secondhand*, journalist Adam Minter takes us on an unexpected adventure into the often-hidden, multibillion-dollar industry of reuse: thrift stores in the American Southwest to vintage shops in Tokyo, flea markets in Southeast Asia to used-goods enterprises in Ghana, and more. Along the way, Minter meets the fascinating people who handle and profit from our rising tide of discarded stuff, and asks a pressing question: In a world that craves shiny and new, is there room for it all? *Secondhand* offers hopeful answers and hard truths. A history of the stuff we've used and a contemplation of why we keep buying more, it also reveals the marketing practices, design failures, and racial prejudices that push used items into landfills instead of new homes. *Secondhand* shows us that it doesn't have to be this way, and what really needs to change to build a sustainable future free of excess stuff.
