michael.mcintire@morganfranklin.com

Michael McIntire is a senior technology executive with 20 years of progressive experience developing and executing IT strategic plans, modernizing IT services, and transforming IT organizations. Michael has a record of accomplishment as a collaborative CIO who leverages technology to solve problems, simplify processes, build business, and deliver measurable benefits to the bottom line. His experience includes managing risks and costs associated with the integration of environments with an emphasis on reducing complexity, maximizing value and enhancing information security. Mike earned his bachelor's degree in Finance and MIS from George Mason University and his MBA from the University of Maryland. Mike currently maintains PMP, AWS Cloud Practitioner, CISSP and ITILv3 certifications.
