

You've heard of the saying "students do not care how much you know until they know how much you care." That right there sums up who Mr. Davila is. Students look forward to Mr. Davila's class, they respect him, and he is admired by staff and students.

Jr. High school is place where you will experience emergency situations routinely and unexpectedly. You can ask anybody who you'd want on your side when a 911 call is place and that person is Mr. Davila. He is our very own unofficial Firebird paramedic.

Mr. Davila, thank you for your unwavering positive attitude with all students, for having a first responders' instinct and for always thinking of students' health first regardless of the lesson in PE for the day.

MEET OUR EMPLOYEES OF THE YEAR

We cannot measure the gratitude and appreciation we have for Mrs. Soto and what she represents for Kiki Camarena staff and students.

Every morning her laughter carries through the office. When teachers arrive to school every morning she greets them, connects with them and in her own unique way she gets a laugh, captures a smile, or tells a funny story.

Kiki Camarena Jr. High is perceived as a school of choice and it starts in the front office. We give credit to Mrs. Soto not only for her efficiency, an extremely bright person, but the pride that she displays when she greets people, helps them and sets a tone for her co-workers.

We thank Mrs. Soto for bringing personality to our school, making sure our school runs smoothly, that the current systems in place are working.
