

## **Message from Dr. Brian J. Thurman, Assistant Superintendent**

### **Human Resources & Risk Mgmt.**

Huge thanks to the entire CUSD team for welcoming me to Calexico and helping me every single day. I'm learning so much about CUSD and I appreciate everyone taking the time to introduce themselves to me and helping me with all my questions. I'm looking forward to visiting every site and celebrating the GREAT work that is happening on CUSD campuses **EVERYDAY.**

The Human Resources office is very busy processing our newest teachers (please welcome them as they make their way onto our campuses in the coming days), entering the new transcript information from all the professional growth our teachers completed last year, supporting everyone with their health benefits questions (the 2019-2020 Employee Benefits Guide was sent out on Tuesday), hiring approximately 30 new substitutes this week, and placing many student teachers throughout the District with talented CUSD staff.

Please don't hesitate to reach out to the Human Resources office with any questions/concerns you might have and we're excited about the 2019-2020 school year!!
