PRISM UCC

Doing justice, seeking peace and building community are central to our identity .

We measure the economy against one fundamental truth: The earth and all that is in it belong to God (PS. 24:1) We believe in a God who calls us to create a just world for all people living with disabilities and mental health challenges. Things are so unsettled - even the things we were trained to do or that are our rituals we can't do the same in a pandemic. It's time to just stop step back and take care of ourselves and each other. Help us raise funds to do that and get good deals and have fun too! Major credit cards accepted for purchases over \$20.00 -Cash otherwise.
