

## FIND YOUR VOICE

I think "Finding Your Voice" means that you must find your purpose in life. That could mean being a plumber or an electrician. It could also be other stuff like working for Nasa or the Army. The way I'll find my voice is by becoming a chef. I have cooked stuff in the past and have enjoyed it alot. Once I have found my voice I will feel like I have accomplished something. Then I can find a new purpose in life.
