

INTRODUCING the AITC-SK Board

She has proudly served on the AITC-SK board since 2019. She remarks, "Time really does fly when you're having fun and working with a passionate team!"

Her career has allowed her to build strong relationships within the ag community and support the long-term success of these businesses.

Ashton is a Partner at MNP, where she specializes in working with family-owned businesses in the agriculture sector.

"Growing up in rural Saskatchewan, I thought working in agriculture meant being a farmer. Through my career and board experience, I've learned that agriculture is so much more; it's a diverse, exciting industry that plays a huge role in feeding the world. I joined the board to help share that message and inspire others to see the many possibilities in ag."
