

# Building Immigrant Inclusive Anti-Poverty Solutions 201

Please join us for a follow up to Global Michigan and Global Detroit's Summer Conference session: Building Immigrant Inclusion to Local Anti-Poverty and Economic Opportunity Work . First-time attendees can also attend the workshop as a stand-alone session.

## Description

Participants will have an opportunity to learn tools to integrate underrepresented immigrant communities into local anti-poverty and asset-building programs and strategies. This workshop is designed to serve community action agencies, regardless of the current level of immigrant integration into local programs-- both agencies with existing programs serving immigrants and those new to the topic will leave with tangible actions that can be implemented locally.

**Steve Tobocman**  
Executive Director,  
Global Detroit
