PCCNA  
**NEXT GEN**  
COHORT

## PERSPECTIVE

As God moves uniquely through each generation of His church, the methods, styles, and philosophies change. Unchanging, are His Word and His Holy Spirit! Historically, God has responded to the hunger and passion in each generation to instigate His next move. Like those who have gone before us, **the NextGen endeavors to become leaders of His Word, and His presence as we demonstrate His power.**

## MISSION

The PCCNA is committed to passing a Spirit-empowered faith and lifestyle to the next generation of church leaders.

To that end, the Next Gen Cohort (NGC) was established in 2018, consisting of one young leader from 20 different denominations and/or church networks.

## #DOINGWHATJESUSDID

"One of my favorite NextGen ministry opportunities happened last weekend. NextGen leaders (40 and under) from Foursquare, Assemblies of God, and Ministers Fellowship International were hosted by an Assemblies of God church in Vancouver, Washington to conduct a #DoingWhatJesusDid seminar."  
—Caleb Brown—

## LEADERSHIP

The NextGen Cohort was established under the leadership of Drs. Jeff Farmer and Sterling Brackett. After successfully mentoring and leading for three years, Jeff has now turned the reins over to Sterling and Caleb Brown. Be watching for some great initiatives on the horizon.

# #DOING

## What Jesus Did

During the **#DoingWhatJesusDid** weekend, three NextGen pastors alternated teaching and leading the activations for the eight ministry skills. It was reminiscent of Joel's army. They moved in unity, strength, and no one jostled each other. It was a joy to watch 21 people lead a friend or family member to Jesus in the second activation on their phones. More than 60 people were baptized in the Holy Spirit with the evidence of speaking in tongues and prophecy. At least 40 people testified to experiencing a supernatural healing of a physical ailment. Nearly all the several hundred participants testified to giving and receiving words of knowledge and words of wisdom. Several dozen people testified of deliverance from torment and oppression and from long-term addictions. It was amazing to watch God work supernaturally through His Holy Spirit to draw people closer to Jesus.

Notably, one of the young pastors on the team invited his 15-year-old son to join the ministry team for the weekend. My heart raced as I watched this 15-year-old Hispanic boy take the microphone and teach a room of hundreds of people how to hear the voice of God.

The team ministered in a total of 10 sessions throughout the course of the weekend. This young man prayed and prophesied to dozens of people, one at a time. There is truly no age limit to who God will use! Thank God for NextGen leaders who are training their kids to walk in boldness and righteousness. The future is bright, and our young leaders are ministering and multiplying in significant and meaningful ways.
