

PENTECOSTAL CHURCH OF GOD

PCG Coaching Experience

In 2021, the Pentecostal Church of God launched a strategic endeavor to coach a select number of its churches toward greater health and growth. Today nearly 40 churches nationwide are participating in this 40-week experience that incorporates online learning, weekly play calls, and monthly Zoom sessions with a designated coach. Recent testimonials from some of the participating pastors are as follows:

“Being coached has made me change my mind set in regard to what I do every day. It has made me stronger by giving me tools I didn’t even know I needed. Now I am able to execute better because I am confident that I have put in the necessary work for ministry success.”

— Pastor Jeff Nance

“The PCG Coaching Experience is proving to be invaluable to me as a pastor and the congregation I serve. Aside from the quality content, relationship formation with the coaches and pastors in our cohort is opening avenues of friendship and shared experience that is priceless.”

— Pastor Stephen Jeffcoat

“Engaging in this group has been instrumental in revealing the need for leadership structure, and it has afforded the opportunity to receive encouragement and challenge. Sometimes we’ve felt like we were stuck in a ditch, but receiving the wisdom of someone who has gone before is helping us get out. This is actually more than a 10 month process; it is a life-long process and commitment to grow Gods kingdom.”

— Pastors Bill and Freedom Ladra
