

I would like to serve on the Crow River Board of Directors --- again!

I have been a board member several times before, and would like to serve again. I believe that the history of the Crow, and the experience the Crow provides is a great value to Hutchinson. I have been a member since 1973, live just East of the 5th green, and play quite a bit. I believe that the members are the backbone of the club, and they must be available to participate in the club events whenever possible. I am married to Pat for 57 years, and raised two great children in Hutchinson. I am a practicing pharmacist serving the Coborns/Cash Wise pharmacies in Minnesota. I have served on the city council, the Hutchinson Utilities Commission, the U of MN College of Pharmacy Dean's Advisory Council, and the Minnesota Pharmacists Association's Board of directors. I was the Director of Pharmacy for the Coborns stores for about 11 years.

I feel that I am well qualified to serve on the Crow's Board again.
