OUR MISSION

We will assist active duty and retired military personnel. Our goal is to continuously improve their quality of life as well as the quality of their families' lives.

We will support organizations advocating on their behalf and organizations providing services not provided by the Road Home Foundation.

We will educate the public on the extraordinary sacrifices made by injured warriors and their families.

ABOUT US

We are a group of close friends who have known each other for over forty years.

On April 12, 2009, one of our sons was severely injured by a roadside bomb while serving with the United States Army in support of Operation Iraqi Freedom. Since then, we've witnessed not only Brendan's struggles, but also those of many other injured warriors as they heal their wounds and strive to regain their independence. We've witnessed not only their individual struggles, but also those of family members as they assist in their loved one's recovery.

We don't have to imagine the hardships that a family endures as it bears witness to their loved one's recovery. We've lived these hardships with Brendan. Because of our unique experiences, we know first-hand the emotional and financial challenges that these military families face as they try to restore dignity, hope and quality to their lives.

In an effort to help the injured and their families, we've established the Road Home Foundation for Injured Warriors and Families Inc., a 501 c 3 not-for-profit foundation.
