Frits Van Paasschen

Author, "The Disruptors' Feast"

Inspiring Change and Hope in an Exponential Age

Exploring technology's disruptive yet facilitating impact on business as usual.

"The Covid-19 pandemic is a timely example of how rapid, unexpected change – disruption – can catch institutions off guard. Our human tendency to ignore threats, create comforting but false narratives and try to go on with business as usual, follows a familiar pattern."

Kareenna Gore

Director, Center for Earth Ethics
Union Theological Seminary

Forging an Earth Ethic in a Time of Crisis

"The coronavirus pandemic has revealed injustices in the fabric of our society and demonstrated the strong relationship between science and ethics and the potential for systemic change. As we meet the challenge of this pandemic, we must also reckon with the looming climate crisis and forge a new earth ethic together."
