BE A CYBERSECURITY WIZARD

THE CASE OF THE HACKED HOMEWORK

PROBLEM:

Four students (Samuel, Felicity, Oliver, Tara) had different cybersecurity slip-ups. Use the clues to match each student with the mistake they made.

MISTAKES:

_____:
Clicked on a phishing link

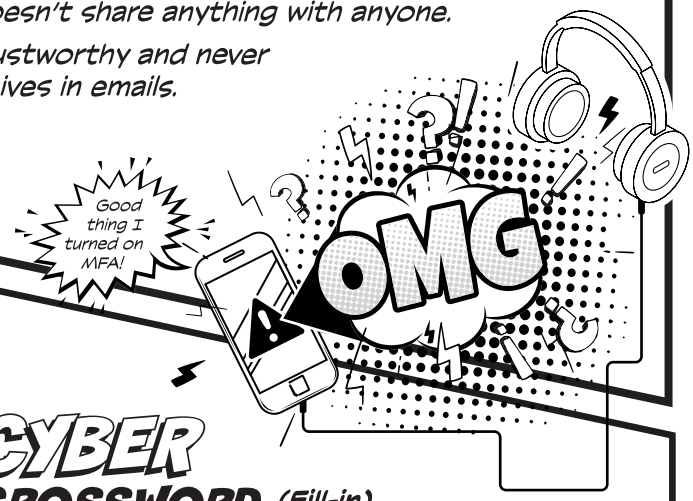

_____:
Used a weak password

_____:
Shared personal info online

_____:
Downloaded an unknown app

CLUES:

1. Felicity doesn't know how to download music or anything else
2. His computer was infected when he clicked on an emailed link from somebody he thought he knew.
3. Tara prides herself on inventive and strong passwords.
4. This person received a Spam message because hackers had her email address.
5. Samuel is allergic to seafood and Phishing and won't touch either.
6. This person's computer got hacked because he uses his birthday for his PIN and everything else.
7. Oliver's selfish and doesn't share anything with anyone.
8. This person is too trustworthy and never checks apps she receives in emails.
