### Standardized Label Template

The Ohio Department of Commerce has drafted the following standardized label template. This template aims to provide cultivators and processors licensed by MMCP with a label template displaying all rule-required information in a standard format and in **legible size** applicable to the product being labeled; create a standardized label in a format familiar to patients that will allow access to essential information at-a-glance, regardless of product type or origin; and provide partial fulfillment of requirements per O.A.C. 3796:6-3-09(B) to eliminate redundancies.

If utilizing **OPTION A**, including all elements shown below in identical layout/format, submission of the label for department review/approval is not required.

Terpene and “Other cannabinoid” information is optional. However, if included, terpene and “other cannabinoid” will be required to appear in the areas identified in the following examples.

(Font sizes: Heading - 11pt minimum, Arial, bold, italic. Body text - 5pt minimum, Arial, headings bold)
