- It is **extremely** unique because everything sold at the market is **grown locally**
- Offers professional and experienced growers
- Offers the highest quality locally produced fruits, vegetables, bedding plants, flowers, honey, baked goods
- It is a great place to socialize and re-connect with old friends while making new ones
- Shopping at the market is a great way to involve the entire family, especially children in making healthy food choices
- Last year was a success with social distancing and safe practices, which will continue this year. Having a safe and healthy market is a major priority for our community.
