

PRESS RELEASE

November 10, 2020
For Immediate Release

Tidal Wave Auto Spa ranked 6th in the industry

The 2020 Top 50 List of Conveyor Carwashes is published annually by Professional Carwashing & Detailing magazine. Tidal Wave Auto Spa jumped from the number 10 spot in 2019 to the number 6 spot on the 2020 list.

Tidal Wave opened its very first express car wash and revolutionized the car wash industry in 2004. This first express wash, which ultimately became Tidal Wave's signature model, was located in metro Atlanta. Its success with the public attracted visits from industry insiders from across the country. Tidal Wave's founders traveled across the southeast researching ways to improve the model.

Tidal Wave Auto Spa values the customer experience, providing educational opportunities for our team members, giving back to our communities and charitable organizations, and offering our customers with a superior clean with every visit.

"We have the World's Best Customers and the World's Best Team and for that we are so humbly grateful." said Scott Blackstock, CEO and Founder.

The home office, headquartered in Thomaston, Georgia, staffs and supports all Tidal Wave operations. Tidal Wave Auto Spa will have 63 locations in 9 states by the end of 2020. Tidal Wave Auto Spa was also named one of America's Fastest Growing Private Companies on Inc. 5000's 2020 list.
