

Domitek Joins Worcester's Downtown Development

Downtown Worcester is experiencing vibrant growth and the City Square project is at the heart of it. Since project inception, a roughly \$90 million public investment has generated \$298 million in private development at the former Worcester Galleria/Worcester Common Fashion Outlet mall site. Worcester's downtown growth provides a unique opportunity for businesses like Domitek, Inc. to contribute to the city's economic viability.

On June 22, 2017, Domitek held a ribbon cutting ceremony and open house for its new headquarters in downtown Worcester, Massachusetts. "Worcester is on the move, and it's important that we do our part to help contribute to the success of this new development. With all the businesses moving downtown, it's a perfect opportunity for Domitek to leverage its skills and technical expertise to help businesses with their IT and communication needs," stated Founder and CEO, Libis Bueno.

Domitek would like to thank UniBank's Invest in Worcester Program as well as Worcester City Manager, Edward M. Augustus, Jr, and the City of Worcester's Office of Economic Development – specifically Paul Morano and Edgar Luna for their guidance and support. "Downtown Worcester is in the middle of a renaissance of arts, dining, and development, and I'm happy we could help Domitek find their place in the middle of it all," said City Manager Edward M. Augustus, Jr. "By providing quality jobs, Domitek is helping to support our goal of making downtown a more vibrant, active place to live, work, and play."

In 2014, the Worcester Regional Chamber of Commerce honored Domitek as Small Business of the Year. Shortly after, Domitek received the Torch Award for Marketplace Ethics from the Better Business Bureau. The Channel Company also honored Domitek by acknowledging it as an industry leader, adding it to the Next-Gen 250 List and the MSP 500 List for 2016 and 2017. These annual lists recognize standout IT solution providers who have successfully transformed a business to meet the demands of emerging technologies such as cloud computing and VoIP. "The solution providers on these lists are ahead of the curve when it comes to working with emerging technologies and building successful practice areas around them," said Robert Faletra, CEO of the Channel Company.

Domitek's Ribbon Cutting Ceremony and Open House included tours of the facility and refreshments. Remarks were offered by the Domitek leadership, as well as Timothy Murray, President and CEO of the Worcester Regional Chamber of Commerce, Matt Wally, Vice President of Government and Community Affairs at Unibank, and Edward M. Augustus, Jr., Worcester City Manager.
