

Focusing on student's strengths leads to continued education!

Cian Carey's favorite subject is math. He recently obtained his HiSED and currently participates in the YouthWorks summer program. He recently applied to QCC's Engineering program and plans to enroll in September.

Education Quote

"Intelligence plus character – that is the goal of true education."
Martin Luther King Jr.

Ashley Rua

Kamron Perry-Burton

WIOA Partnerships & Stackable Credentials

After obtaining the Customer Service and Advanced Sales certificates at Training Resources of America, Kamron continued his education and earned a Culinary certificate at You Inc. and was recognized for his "tenacious" disposition. Kamron is currently interviewing, and he plans to save money to utilize his skills from both WIOA programs to purchase his own food truck specializing in Creole cuisine.

"The program helped me with my communication, work and job readiness skills preparing me to venture into the job force. I am one step closer to achieving my culinary goals."

HiSED's Gateway to College

Ashley attended the WIOA You Inc.'s HiSET and career exploration program in Milford. She obtained her high school equivalency diploma (HiSED) and participated in our work experience program at Bellingham Library. She plans to attend QCC in the fall and transfer to Fitchburg State University to obtain her Master's in History.

"Going through this program has inspired me to go to college. I know I have a bright future ahead of me, and I'm not looking back. Without the program I am not sure I would have realized my full potential. I am thankful for all the help."
