

Pre-screening Service Nets New Hire at SCM Elderbus

Hundreds of Central Mass companies receive general business services from the Workforce Central Career Centers, such as free job postings on JobQuest. But those businesses who choose to work more closely with the BEST (Business Engagement Solutions Team) receive added benefits when they partner to use the pre-screening service to fill a job opening.

That is what the South Central Mass (SCM) Elderbus Agency recently did. After meeting with the BEST to discuss a vacancy for a full-time Transit Scheduling Assistant, the Recruiters began immediately to find candidates. Within ten days, a qualified candidate was referred for the position. Elderbus was impressed with the individual's qualifications and scheduled an interview immediately. Days after, an offer was made and the individual started on the job in less than five weeks from the initial posting of the vacancy. Read more about it in this newsletter issue under the Job Seekers section.

“Your office was a tremendous help in assisting us to quickly identify a potential candidate.” Timothy O’Day, Executive Director, SCM Elderbus.

With a full-time Recruiter to assist in your company’s search to fill a vacancy, more businesses are encouraged to take advantage of this pre-screening service offered by the Workforce Central Career Center, which, as with all other business services, has no cost.

For any businesses that are interested in posting job vacancies or receiving other services, please contact your local Business Service Representative:
