

## Angelica Seafoods

Angelica Seafoods, founded by Captain Dave Marciano, is dedicated to offering fresh, sustainable seafood directly from the Gloucester coast. With the **GRAND OPENING** of their local fresh seafood market in Gloucester, MA., scheduled for September 13th & 14th, 2024, their commitment to quality and sustainability distinguishes them in the seafood industry. They foster a vital link between consumers and local fishermen, reinforcing community ties and ensuring a reliable source of premium seafood.

Angelica Seafood surpasses your typical seafood market. All our seafood is meticulously packaged and vacuum-sealed to ensure peak freshness and convenience. Our vacuum-sealed packaging also allows our fresh seafood to be frozen. Additionally, we provide insulated travel boxes and bags to maintain the quality of your seafood during the warm summer temperatures on your journey home. We also offer overnight shipping nationwide for peak freshness and overnight shipping for just \$15.99 to New England States.

With growing concerns about environmental impact, Angelica Seafoods prides itself on offering all-natural and sustainably caught seafood. This emphasis on sustainable fishing practices ensures the preservation of marine ecosystems and aligns with the values of environmentally conscious consumers. By supporting Angelica Seafoods, customers are also supporting local fishermen. Captain Dave Marciano's background as a fishing captain and his dedication to fair compensation and a reliable supplier network strengthen the fishing communities, thereby promoting sustainable livelihoods.
