## **How Renewable Energy Can Help Your Business Thrive**

**7:30 AM: Check-in, Coffee and Pastries | 8:00–9:00 AM: Presentation**  
**Cake Ann, 63 Rogers Street, Gloucester, MA**

While electricity rates continue to rise, businesses are assessing their options on how to engage with renewable energy sources. Tim Sanborn will outline why solar is an attractive business option that has the potential to reduce electricity costs while taking advantage of available incentives. Joining Tim will be a Cazeault business client who will provide a firsthand account on the financial return on investment that going solar has provided. A Q&A session will follow the presentation.
