

You Can Expect

INNOVATIVE, ACCESSIBLE TECHNOLOGIES AT HOME

Highly-qualified personnel and advanced technological capabilities has led TridentCare to become the preferred provider of choice. We quickly and professionally deliver leading-edge diagnostic solutions and digital results at home.

COMMITMENT TO EXPERT CARE AT HOME

Our team of trusted, compassionate, experienced, professionals bring caring, attentive bedside manner to each patient we serve. We reduce the risk of avoidable acute transfers and hospital re-admissions, eliminating the need to transport patients to a hospital to receive diagnostic services.

RESPONSIVENESS, RELIABILITY, AND CONVENIENCE

With just one call, **TridentCare at Home** brings the most advanced imaging services in the comfort and safety of your patients' homes.

STREAMLINED OPERATIONS

Our electronic ordering and reporting system is fast, easy, and accurate. TridentCare offers easy, secure web access, allowing your medical team to quickly and efficiently access information – including digital images and results – whenever needed. Our paperless system saves time, reduces errors and offers rapid turnaround time in receiving results. Access to images and results is available 24/7 to you as the provider from your smartphone, laptop, tablet or PC.

We Go Where You Are.

ONE TRUSTED PARTNER

A complete and flexible suite of services to eliminate the hassle of multiple providers and support partners' clinical operations.

ONE NATIONAL PLATFORM

Our proprietary online ordering, results, and image viewing system, TridentConnect, streamlines service delivery and improves result turn-around times and can interface directly into the customer's EMR system.

ONE TEAM, ANYWHERE

Well-trained, caring experts serve patients in any location, eliminating the need for patient travel while reducing costs and risks for partners and patients.
